

Cancer Research Network Bern (CRNB) – Monthly Journal Club (JC)

Goals and Topics:

The monthly Journal Club provides MSc- and PhD/MD- students the opportunity to dig in and discuss the latest breakthroughs and news in cancer research and by doing so expanding their knowledge and horizon. Moreover, it's a great networking and collaboration gathering among students in the cancer research field.

Organization:

There are 10 JC meetings per year. Per session, 1-2 students from the different CRNB-research groups have the opportunity to present an interesting cancer research publication and highlight the key findings of the paper, followed by a general discussion. The selected publication will be distributed latest one week before the journal club with the outlook-invitation.

When: Last Tuesday of the month

Time: 11:00h-12:00h

Venue: Mu35_H813, Murtenstrasse 35

ECTS: 1 (*required 80% participation and presenting a scientific paper. 1 ECTS can be earned once during the PhD*)

KSL-Nr.: 489421

Organizers: PD Dr. phil. nat. Michaela Medova, Department of BioMedical Research (DBMR)

Registration: via KSL (<https://www.ksl.unibe.ch/KSL/home>) and by email to nicole.vonallmen@unibe.ch and michaela.medova@unibe.ch

Program: The new JC schedule is composed in November and December for the next year and sent to the CRNB-members by email.
